You always told me stand for something
We're living on the edge of something
I want to feel the thrills
It spins the world away

I never should have told you something
We're living on the edge of nothing
We're twisted holding on
Completely unaware

As we collide, as we collide

I didn't wanna hear the battle
I'll push you to another level
So we can start to feel
The way we're supposed to feel

It's like I'm running around in circles
We only ever want protection
Exactly what we crave
It's closer than you think

As we collide, as we collide
We're not alone, we're not alone
As we explode, as we explode
We'll get it right, we'll get it right
As we collide, as we collide

Paralyzed, paralyzed, paralyzed, I'm paralyzed!
Put it out, put it out, put it out, put it out
Put it out, put it out, put it out, put it out.

We're not alone, we're not alone
As we explode, as we explode
We'll get it right, we'll get it right
As we collide as we collide.
