More and more and more,  
I don't know where we're going to  
More and more and more,  
there's so much we don't wanna do  
'Cause we lie, we cheat,  
and we run from each and every heart affair  
Yes we lie, we cheat,  
and we hurt 'til somebody's in despair

Boom, keep in tune,  
Hollywood will zoom  
Left to the point,  
Right to the point  
Smoke it, like it's a joint.

Makin'  
ain't got time to be fakin'  
it's my turn and I'm takin'  
Everything without shakin'  
Yo, here with the bacon

Happy is how we should be,  
realize that we are wealthy,  
living, here on this earth,  
enjoy what it's worth.

Anger, left behind you,  
just don't let it find you,  
love will not remain,  
as long as you complain.

More and more and more,  
I don't know where we're going to  
More and more and more,  
there's so much we don't wanna do  
'Cause we lie, we cheat,  
and we run from each and every heart affair  
Yes we lie, we cheat,  
and we hurt 'til somebody's in despair

More and more and more  
More and more and more  
More and more, bam, don't give a damn  
Pump the music and jam  
there's no time for the problem

Not a thought to solve them

Just make sure you get it  
Show the fellas you wit' it  
Being proud you did it,  
never will you forget it

There's a way to stop this,  
listen to the prophets,  
everything they said,  
yo! it should be read.

More, he had to tell,  
things that made him well,  
L.I.G.H.T. is shining,  
and my brothers heart crying.

More and more and more,  
I don't know where we're going to  
More and more and more,  
there's so much we don't wanna do  
'Cause we lie, we cheat,  
and we run from each and every heart affair  
Yes we lie, we cheat,  
and we hurt 'til somebody's in despair

More and more and more,  
I don't know where we're going to  
More and more and more,  
there's so much we don't wanna do  
'Cause we lie, we cheat,  
and we run from each and every heart affair  
Yes we lie, we cheat,  
and we hurt 'til somebody's in despair

More and more and more  
More and more and mor
