I need you like the summer needs the sun  
I need you to walk and to run  
I need you like a river needs the rain  
I need you to fill me again  
Without you, I run dry  
Without you, I won't even survive

So wake me, take me with you  
Chase me where your river runs  
Romance me 'til my heart belongs to you  
Draw me closer to you  
Lead me in your ways  
Enchant me 'cause my life belongs to you

I need you like the stars needs the sky  
I need you to help me to shine  
I need you like a singer needs song  
I need you to carry on  
Without you, I run dry  
Without you, I won't even survive

So wake me...  
Embrace me, let me feel your strength  
Hide me in your shade  
Your my shelter in the rain
