Grandma she don't really get around good anymore
In fact to get her out of the house is really quite a chore
But everyday somebody seems to find the time to stop
To see if grandma needs something from where they
go to shop.

You see love helps those who cannot help themselves
It cares about those hearts that's been put up on a shelf
It'll introduce a lonely soul to a lonely someone else
Love helps those who cannot help themselves.

Mr. Johnson has a small farm down in southern
Tennessee
But one year he took I'll before the time to plant the
seed
And no one knows which neighbor planted or just won't
tell
But he had his best crop ever by the time that he got
well.

You see love helps those who cannot help themselves
It cares about those hearts that's been put up on a shelf
It'll introduce a lonely soul to a lonely someone else
Love helps those who cannot help themselves.

A little helpless baby child was born into this world
She didn't have a daddy and her mother was just a girl
But there came a young man willing to give both of
them a home
The girl he married the child he cherished as though
she was his own.

'Cause you see love helps those who cannot help
themselves
It cares about those hearts that's been put up on a shelf
It'll introduce a lonely soul to a lonely someone else
Love helps those who cannot help themselves.

Yeah, love helps those who cannot help themselves...
