Strain

But I will strain the qualities I take on you

To be or not to be

Thy will not matter at the end of the day

Knock, knock

Who's there?

Well look who it is

An opportunity

Where'd you come from?

I been searching for years

To find a young ear

To wrap around my solidity

I've been...

I've been watching you from a distance, from a

distance, from a distance

And now it's easy to see

You've always needed me you've always needed that

sense of character

I see all that you never did

Let them take you away

I believe that we've made amends

So take aboard what I've given you and sail away

What goes around comes around

An eye for an eye leaves everyone blind

To see

To believe

Is a start to a new beginning

Tear away all yesterdays

So breathe in and be out in a second

So breathe in and be out in a second

What goes around comes around

(Your day will come)

Your day will be

(Your day will come)

Your day will be

(Your day will come)

Your day will be

(Your day will come)  
Your day will be bitter sweet

I see all that you never did  
Let them take you away  
I believe that we've made amends  
So take aboard what I've given you and sail away

Your ambition is not a purpose  
Your ambition is the light at the end of the tunnel
