Doesn't take long time to understand that there are no  
limits to the imagination  
Doesn't take long to turn this into a way to grow  
But the longing to be greater is a cruel price that we  
pay

How can we be so fools?  
The Heaven was there and now there's only darkness  
How we can achieve it  
Where are the old trees? I can only see machines  
It's time to put together everything we've learned and  
return to Paradise  
Then we will see the blue sky and with you  
Back to the past, stop the gears while there is time

We'll reborn! If you believe as one  
If you believe!  
We'll reborn! If you believe  
If you believe as one

Children playing on the ashes of a decadent reign  
Dressed in special clothes, using on a daily  
Their parents are slaves of the villainy that just wants to  
profit and not leave us free

Oh, we have forgotten the old desires drafts of our  
lungs  
Waiting for the day that I can return  
Their parents are slaves of the villainy that just wants to  
profit and not leave us free  
How can we be so fools?  
The Heaven was there and now there's only darkness  
How we can achieve it  
Where are the old trees? I can only see machines  
It's time to put together everything we've learned and  
return to Paradise  
Then we will see the blue sky and with you  
Back to the past, stop the gears while there is time

We'll reborn! If you believe as one  
If you believe!  
We'll reborn! If you believe

If you believe as one  
There's time to change our lives  
If you believe in a place for all  
We'll make a better world

It's time to surrender! Now, we need to decide how it  
will be our future  
It's time to engagement! Already reached our last  
chance to build a new tomorrow

How can we be so fools?  
The Heaven was there and now there's only darkness  
How we can achieve it  
Where are the old trees? I can only see machines  
It's time to put together everything we've learned and  
return to Paradise  
Then we will see the blue sky and with you  
Back to the past, stop the gears while there is time

We'll reborn! If you believe as one  
If you believe!  
We'll reborn! If you believe  
If you believe as one  
There's time to change our lives  
If you believe in a place for all  
We'll make a better world

Tears fallen down, blown by despair  
Where is the awareness that we need?  
Dark clouds go away, let me breathe  
Before my life disappear

I hear a cry of the Earth lamenting our lack of love  
Not want to hear it anymore

Disconnect your brain from your kingdom of illusion  
and come to the real world  
Get out your bell jar and use what you know to save  
what remains

The readjusting: the device has changed  
Then, we are programmed to a new beginning  
Henceforth we will be alone
