Listen up Folks, are you feeling allright tonight?  
Come on honey it's never too late  
Hard as a rock and I'm ready to blow  
Get on up and shake that pole

Burnout, Burnout  
See you in hell

Ohhhhh  
Shaking like an earthquake  
Call me man, call me man  
You can call me everything you like  
Loosen the seatbelts, get down on your knees  
I can't wait for you to beg me please

Burnout, Burnout  
See you in hell  
Bottom's up  
It's time to go  
All dressed up for rock n roll

Are you ready?  
Are you ready?

Guitar

Ready to rock and I'm ready to roll  
Come on honey it's never too late  
Take me home and burn my bone  
I'm gonna play that game for sure

Burnout, Burnout  
See you in hell
