"Goin' Down"

Visit "[Goin' Down](#)" on MotoLyrics.com

You're a goddamn screw up
A goddamn punk
Wasting your time just getting drunk
You're going down down down down down down
When you want something that you can't get for free
Tough luck
Well you aint gettin it from me

You're going down down down
You're goin fast
It's gonna last
Going down

You're a godamn waste
A piece of trash
Giving head just to get some cash
You're going down down down down down down
Keep sticking needles till you don't know when to quit
Tough Luck
Well you don't know shit

You're going down down down
You're goin fast
It's gonna last
Going down
