Woah
Have you ever been afraid at night?
Been awake till the morning light?
Heart's pounding fast and hard
Like a hammer it feels

Tryin to sleep
But you lay on needles
Eyes wide open
Jaw's outside
Your breath-like a steamin machine
Shakin like at fall
Hold your breath and listen
Don't wanna loose

Run like Hell
You better run like hell

Terrified, terrified
Just can't get no sleep tonight
Terrified, terrified
Maybe what they say is right

Cleanch your fist
It's getting colder
Blood is pumping
Mouth is dry
It feels that it's gettin cold
It's not getting clear
Time stands still
It's only fair

Run like Hell
You better run like hell

Terrified, terrified
Just can't get no sleep tonight
Terrified, terrified
Maybe what they say is right
Tonight
