I got to have you baby, I want you by my side
Just climb a boat and take me for a ride.
I need to have your body, your love I really need
It's got to be you are that kisses me.

Desire - ooh. I want you by my side
Desire - to be my ever lovin' guy.
Desire - ooh baby can't you see
Desire - I want these chains get off me.

Come a little closer, baby don't be shy
I can tell by the look in your hungry eyes.
You make me feel a woman, I make you feel a man
To make me want much longer boy I just can't stand.
