Hold on to what you got and be satisfied
You're strong enough to stay in love so purified
We'll be changed tonight
Unfold you no one holds you back from you
Who told you not to get through your fears and your
Fright

We'll be changed tonight
We'll be changed tonight

Chorus
Feel the sun like I do
Raise a smile when you're blue
All the colours in you
Will come out
Will come through
Feel the rain like I do
Raise your hands - it cools you
To all the colours in you
Welcome out

Hold on to what you got and be satisfied
Who told you not to get through your fears and your
Fright

We'll be changed tonight
We'll be changed tonight

Chorus
