When the lights were low in the room last night
You were lookin' good with your skirt so tight
You were tempting me with your painted smile
My imagination was runnin' wild

CHORUS:

& you can look every place
But you won't see my face
Search everywhere
But you won't find me there
I'll be gone, gone movin' on
I'll be gone from now on

I was wrapped around your little finger then
Now my thinkin's great, I'm on my feet again
You've been havin' fun, it was all for show
It was easy come, but now it's easy go

(chorus)

I thought you were different girl, but you're just the
same
I can't stay here wastin' my time, playin' your game

(repeat & fade):

I'll be gone, gone, gone, gone...
