People, somethin's happenin', somethin' in the air
Listen to the sound now, come from everywhere
You've got to hurry, don't want to be late
But people don't you worry, what's happenin' is great
It's a-happening & I know that it must be
But this time it's happenin' to me

Run down to the corner, ton of people there
Brother, get your sister, come from everywhere
Everybody hear now, got to gather round
Get all together, what they're puttin' down
It's a-happening & I know that it must be
But this time it's happenin' to me

(instrumental)

It's a-happening & I know that it must be
But this time it's happenin' to me
