Look at us today  
We ain't got nothin' nice to say  
We've got our hands up in the air  
Expecting miracles from somewhere

And the words, we don't pay no attention  
And the good in us all we don't mention

We need more love music, we sure can use it  
To turn those people on  
We need more love music, my heart approves it  
Before the beat is gone

Droppin' down the street  
No happy faces do you meet  
And all those promises that we made  
Are soon forgotten or mislaid

When the spirit, people, is dying  
And the time pretty prices are trying

We need more love music, we sure can use it  
To turn those people on  
We need more love music, my heart approves it  
Before the beat is gone

A little music never hurt no one  
Gotta be a song for every mother's son  
So believe your heart can hum  
Well, let me tell you where I'm comin' from

We need more love music, we sure can use it  
To turn those people on

We need more love music  
We need more love music

We need more love music, we sure can use it  
To turn those people on  
We need more love music, the heart approves it  
Before the beat is gone

We need more, we need more love  
We need more love, yeah

We need more love music  
We need more love music  
We need more love music
