Forget about your Hemi's and your GTO's

I've got a new machine, and she really gos.

When I pass you up on the drag strip you'll know darn well

You've been beat by a porcupine V8 Chevelle

Taching it up now, you better be quick

Cus' nothing can outrun my SS 396.

There's lots of chrome goodies sitting under the hood

She looks real pretty, like a tough one should.

On the redline tires, she sits real mean

She's the coolest hot one... you've ever seen

Crusing the highways, getting my kicks

Everyone's checking out my SS 396

Look at her go (look at her go)

She sits real low (she sits real low)

Dealer tires grip the road

Her deep breathing fours (deep breathing fours)

And they'll never settle short (never settle short)

Feel the rear end grab the load

Take you for a ride man, it's really a treat

Strap yourself into a bucket seat.

The four speed tranny is starting to whine

You'll know about the Super Sport

Once we get off the line

Crusing the highway, getting my kicks

Nothing can match my...SS 396
