Paulson - Calling on You

(Calling on you)

(Calling on you)

(Calling on you)

Do you remember when we played that game

It wasn't hard but it turned out that way

When you were gone they tried to take your place

But it just wasn't the same

No it wasn't the same

How was I supposed to know

I'd never escape her ghost

It seemed not long ago, she was mine to protect

Can't get her off my mind

No matter how hard I try

I'm out of options this time

Calling on you to make this happen

I need to know this will turn out right

Cause I can't change her mind

So I'm calling on you

Calling on you

Do you remember when we played that game (played
that game)

It wasn't hard but it turned out that way (out that way)

When you were gone they tried to take your place (take
your place)

But it just wasn't the same

No it wasn't the same

I felt the final straw

I found out that she moved out

I wish I knew before

I gave her my heart

Now when I try to sleep

My body begins to scream

I'll burn as long I breathe

Now when I try to sleep

My body begins to scream

I'll burn as long as I breathe

Calling on you to make this happen
I need to know this will turn out right
Cause I can't change her mind
So I'm calling on you
(Calling on you)
(Calling on you)
(Calling on you)

Calling on you to make this happen
I need to know this will turn out right
Cause I can't change your mind
Calling on you because I can't change her mind

I'm calling on you to make this happen
I need to know this will turn out right
Cause I can't make her mine
So I'm calling on you
Calling on you
Calling on you

I'm calling on you
(How was I supposed to know)
I need to know this
(I can't escape her ghost)
I'm Calling on you
(Now when I try to sleep)
I need to know this
Cause I can't make her mine
(I can't escape her ghost)
