The big moon is risin' so bright in the sky
But it won't shine brighter than the stars in your eyes
It rises above me so bright and so blue
And I won't see anyone, as lovely as you

Take me into the night,
Past these lonely dreams in my heart
I love you, more than I could show you
More than I could know, in my heart

So lay down beside me and hold me tonight
For your love has found me and it feels so right
These thoughts in my mind are so scattered and few
And I won't see anyone as lovely as you

Take me into the night,
Past these lonely dreams in my heart
I love you, more than I could show you
More than I could know

Take me into the night,
Past these lonely dreams in my heart
I love you, more than I could show you
More than I could know, in my heart
In my heart
