I've been up and down before  
Sleep won't hold me any more  
You're running out of games to play  
I don't have to live this way

Thought I loved you for awhile  
You were loaded up on style  
Talk is cheap but I won't play  
I don't have to live this way

No, I won't play  
The games that you've designed  
And I won't wait  
To listen to your lines

Before you speak another word  
I'll repeat it so I'm heard  
You're running out of games to play  
I don't have to live this way

You won't stay another night  
Or did you wrong another right?  
Now, I've got the eyes to see  
You get your kicks by hurting me

No, I won't play  
The games that you've designed  
And I won't wait  
To listen to your lines

Before you speak another word  
I'll repeat it so I'm heard  
You're running out of games to play  
I don't have to live this way
