I met a man  
Traveling down the road  
He looked me in the eye  
And he gave me a ring  
And he gave me a rose  
And he told me some gypsy lies

*[Chorus:]*

The road is a lover  
You never recover  
Not now or any time soon  
My head starts to spin  
When I think where I've been

Playin' twin to an old fiddle tune, oh  
As the wind chases after the moon

Through the kindness  
Shown me that day  
I gave him this melody  
And we sang in duet  
'Neath the stars in the sky  
And the shadows of dancing trees

*[Chorus]*
