It blows my mind

It blows my mind

It blows my mind

It blows my mind

It blows my mind

And so we throw stones to the sky trying to  
Smash the stained glass windows of this world  
And so we throw stones to the sky trying to  
Smash the stained glass windows of this world

And so we throw stones to the sky trying to  
Smash the stained glass windows of this world  
And so we throw stones to the sky trying to  
Smash the stained glass windows of this world

And so we throw stones to the sky trying to  
Smash the stained glass windows of this world

It blows my mind

It blows my mind

It blows my mind
