I'll drown you in kisses, I'll drown you in kisses
I'll drown you in kisses, I'll drown you in kisses

I know, I miss so many magic memories
When I'm away from you, I miss your touch, I miss your
voice
I miss the way we unlock the secrets through each
other
There's only you I could love forever

That's why I'm so lonely in a crowd
And all I think about is coming home to you
It's pother stuff and dreams, how we hunger for our
time
I could never get enough of your sweet love

That is why I'm so lonely in a crowd
And all I think about is coming home to you

I know I miss so many magic moments
When I'm away from you I miss your touch, I miss your
voice
I miss the way we unlock the secrets through each
other
There's only you I could love forever

That's why I'm so lonely in a crowd
And all I think about is coming home to you
It's pother stuff and dreams, how we hunger for our
time
I could never get enough of your sweet love

That is why I'm so lonely in a crowd
And all I think about is coming home to you

I'll drown you in kisses, I'll drown you in kisses
I'll drown you in kisses, I'll drown you in kisses
I'll drown you in kisses
