It begins a single road  
Up ahead are many turns  
Every curve it brings me hope  
Every mile you live and learn

Many paths are crossing over  
Passengers along the way  
We're the spark until the forces  
Come together  
Makes a flame

Side by side  
Strong as stone  
We all walk on  
Together  
Side by side  
Unite as one  
We are one voice  
Together

United we stand  
Divided we won't fall  
But when we get the call  
We come together

Side by side  
Strong as stone  
On and on  
On and on
