Who here in the crew was he talkin' to?
He was laughin' and smokin'
Who here in the crew, was he talkin' to you?
What words were spoken

I shot an actor it the street
It was my debut at directin'
We nailed him in the hands and feet
Last seen, he was in his trailer restin'

Who here in the crew was he talkin' to?
What was he sayin'
Who here in the crew was spoken to?
Was he smokin' and laughin'?

I shot an actor in the street

I shot an actor in the street
Last seen, he was in his trailer restin'
I need a retake on that scene
Keep lookin' for him, I need his blessin'

I shot an actor in the street, I shot an actor
