We know You're searching
Roaming the earth
Seeking a people who'll obey Your word
Oh count us among them now is the time
Make us the temples of Your holy fire

Our hearts are thirsty send forth a flood
This generation needs to know Your love
Boldly we cry out now is the time
Make us the temples of Your holy fire
Make us the temples of Your holy fire

Let You glory shine
Come consume our lives
Pour out Your Spirit
Fan every flame
Burn with a brightness that can't be contained
Fall on these altars now is the time
Make us the temples of Your holy fire
Make us the temples of Your holy fire

Wind of the Spirit blow
Make heaven's glory known
Come with compassion fill every soul
Wind of the Spirit blow
River of life run deep
Fountain of grace flow free
We are Your garden water Your seed
River of life run deep
River of life run deep
