Verse 1 :

Spirit move flood this room changing hearts igniting
sparks burning bright for you.
I see an army of angels arriving barely beyond the
horizon with their eyes on our lives living in these
dangerous times I'm reminded that I'm not alone I rely
on God to make me strong as people turn into bombs
dangerous minds death tolls on the rise call it a
sacrifice
to the father of lies cuz they do not realize they
been deceived they cannot see Christ blood set me
free
so I march in victory.

Chorus:

Come with your life come with your Spirit.
We all wanna hear it. Come with your life come with
your vision. We wanna listen.

Verse 2:

Move me like a river. Take me out to sea.
Who I really wanna be is changing the world and not
conforming in these end times I see signs with little
warning your transforming my mind from death to life
I'm livin on the mic writing rhymes till the second
coming of christ so take me out with your tidal wave
cuz I've been tossed around like a slave lost by the
ways I crave slippin by holdin on to a reef in disbelieve
and let go as you take control of everything inside of
me.

(Repeat Chorus)

Move Me like a river. Take me out to sea.

Spirit Move...flood this room...yaaa
