Everything I've always wanted
All the dreams that come to haunt me
Are here right now, here right now
I close my eyes
And from the skies
I feel the presence of a
Vast And Living Intelligence

Vast And Living Intelligence System
Source of energy, source of wisdom
Vast and living
Vast and living
Vast And Living Intelligence System
Information of life insistent
Vast and living

Vast and living
All-forgiving
Immanent and transcendent
Intelligence
Vast and living intelligence
Filling my brain, my every sense
With ecstasy
Of Valis

Vast And Living Intelligence System
Source of energy, source of wisdom
Vast and living
Vast And Living Intelligence System
Information of life insistent
Vast and living.
