The actress is always breaking things  
The things you made and she took you for  
And I'm so tired -- i'd be lying -- I hope the prarie buys  
you more  
The fitness coast is growing near  
The shores they don't stay blond this year  
That's why the marble lawns stay clear and warm in  
time

I want to stay but my time is wasting  
The magic lands call my name  
They want to fire a missle launcher  
But I know I need to stay

We all know that by staying here it'll be a good high this  
year  
So what's the use to staying there if you've got no use  
for time  
The fitness coast is growing near  
The shores they don't stay blond all year  
The continent moves with growing fears  
It's all for expensive lawn

I want to stay but my time is wasting  
The magic lawns call my name  
I want to fire a missle launcher  
But I know I need to stay

I know I need to stay  
(And fight the day.)  
I know I need to stay  
(And fight the day.)  
I know I need to stay  
(And fight the day.)  
I know I need to stay  
(And fight the day.)
