If you enjoy the company  
of a descending family tree  
Well tuck in your thoughts,  
it's there or its not.  
the feeling is mutual

Well pardon my birth i just slipped out  
origins i can't brag about.  
spawn of a bank inquisitor  
And theives i wish.

Watch out the snitch also  
involves himself in blackmail.  
One would think the interests conflict.  
Yeeeeeah, hooo

(some meaningless gibberish about docks?)  
changing the order...

the air is so taut/tight i feel so thin  
Hot as the come to closing in  
Hot as the gun i'm closing in  
and reap the benefits

Beware the head of state  
says that see believes in leprechauns  
Irish folk tales scare the shit out of me, yeah

be as it may i'm happy to say i'm around  
Miles accrued and passengers add up  
the message on a mirror says "stick with me"  
Cause no one's there  
to read your reflection when i'm gone  
get it on
