Know where you fucking stand
It's all you've got so don't let go
I'm fucking tired of what you say
Behind my back
That shit won't last
You've brought it on
Your fucking self
The words you speak
The way you act
It makes me sick

I will not let you bring me down

Know where you fucking stand
And don't let go
I'm fucking tired of what you say

Behind my back
That shit won't last
You've brought it on
Your fucking self
The words you speak
The way you act
It makes me sick

I will not let you bring me down

Know where you fucking stand
It's all you got - don't let go
Now I see it clear
Walk away - not this time
