Julia you set the standards for me
Walk to your door
Beggin for it just to be more and

Julia I couldn't do much better than you
Said so yourself
I wouldn't want anyone else

And I can't live without your love
And I can't live without your love
Well I can't live without you

Julia oh you're drivin me crazy
But I'm a...I'm a part of your plans
Oh just a man while your dreams be
You're just a part of me
Oh please see how much how much you mean to me
Please see how much how much you mean to me Julia

And Julia straight away you've had me
And I know I've had you
You're a part of me too

And I can't live without your love
And I can't live without your love
Well I can't live without you Julia

And I can't live without your love
And I can't live without your love
Well I can't live without you Julia
