wasting my life believing in you  
all the hurt you put me through  
telling all my friends  
bad things about me  
bad karma will come back to you

(chorus)...whose been telling  
all of those lies  
whose been telling them  
sad goodbyes  
you run if you can  
you run and you hide  
whose been telling  
all of those lies

mixed up little girl  
mixed up little mind  
can't you think  
to be a little kind  
find what you're after  
but leave us alone  
if you can't  
call me on the phone

wasting my life believing in you  
all the hurt you put me through  
telling my friends  
bad things about me  
bad karma will come back to  
you, you, you

you try so hard just to start a fight  
my friends think you're in the right  
maybe you'll win, maybe I'll fight  
whatever, you're the  
devil in the night

(chorus
