Intricate are you among the masses  
Interested in you will never pass us  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Intricate  
Interested

Woke up today in a praisin' state of mind  
Had the revelation while I'm waitin' in line  
A picture of your face flashed across the screen  
It's time to come together singin' 217

Stare at me I can't forget a set of eyes  
The window to your soul is what I like to analyze  
So don't be surprised when I memorize you in a crowd  
We the people got a purpose and it's now  
Stare at me, stare at me tonight

Intricate are you among the masses  
Interested in you will never pass us  
Interested you  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Interested you  
Intricate are you among the masses

So give me just a second to catch my breath  
Heart attacks will come but I'll never see death  
No need for the verbs or description dig  
Depiction tonight eternal listen kid

So inspire this poet from cage to stage  
I'll climb to the window pencil to the page  
Inside connection, inside reflection  
Me to you, mine is yours musical affection  
Stare at me, stare at me tonight

Intricate are you among the masses

Interested in you will never pass us  
Interested you  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Interested you  
Intricate are you among the masses

Open your window  
Open your window  
You're a star  
You're a star

Interested in you  
Intricate in you

Intricate are you among the masses  
Interested in you will never pass us  
Interested you  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Interested you  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Intricate are you among the masses  
Intricate are you among the masses

Intricate are you among the masses  
Interested in you will never pass us  
Intricate are you among the masses  
Interested
