I am breathing but I can't figure out why - yeah  
I've check, check, checked out  
To the numbness in my sensory overload  
Your fingertips will never know if I'm alive  
so check check check my senses  
My nerve endings are fried  
Who can I find, to bring me back to life  
Whoa whoa whoa (4x)

Check your pulse, check your pulse  
And see if you're alive  
(check your pulse, check your pulse and see if you're  
alive)  
Check your pulse, check your pulse  
My respiratory system is failing me again  
My lungs can't suck in anymore lies

Check your pulse, check your pulse  
And see if you're alive  
(check your pulse, check your pulse and see if you're  
alive)  
Check your pulse, check your pulse, oh whoa oh  
Noise, noise, all around me (3x)  
but you can't bring me down  
Noise, noise, all around me (3x)  
but you can't bring me down, you can't bring me down

Check your pulse, check your pulse  
And see if you're alive  
(check your pulse, check your pulse and see if you're  
alive)  
Check your pulse, check your pulse  
Noise, noise, all around us  
Noise, noise, all around us  
so check, check, check your pulses  
and see if you're alive  
see if you're alive
