"Countin' Down The Days"

Visit "[Countin' Down The Days](#)" on MotoLyrics.com

I remember what seems like yesterday
Couldn't hear your voice but I knew you were there
You were always listening, listening, to every word I'd say
Your heart was fading and I wasn't there
You were at the other end couldn't speak but I know what you'd say
Couldn't hear your voice but I could hear what your heart say
I am gonna see you in a little while
chorus: When I die I'll see something beautiful
Come and see me sometime
May the heavens hear all I have
I'm countin' down, countin' down the days
You're the one who taught me how to listen, how to listen
Now I'm waiting for the day, the day to come
When I, when I will be with you
I know where you went
I know where you are
I know who you're with 'cause your just like Him
I'm gonna see you in a little while
CHORUS 2x
Echo in me, echo in me
Everyday, everyday
That goes by without you, that goes by without you
Echo in me, echo in me
Everyday, everyday
That goes by without you, that goes by without you
CHORUS
Echo in me, echo in me
Everyday, everyday
That goes by without you, that goes by without you
Echo in me, echo in me
Everyday, everyday
That goes by without you, that goes by without you
Goodbye, I love you
Come and see me sometime (8 x)
