"Kiss Me Glory"

Kiss me Glory, embrace me tonight
Hold me Glory, I want to be loved by you tonight
Is there anyway this could pass me by
Please don't leave me here tonight, I'm alone

Make it the way it was before the world knew you and I
Drowned out, by everything
Lift me up so I can sing
Kiss me Glory, embrace me tonight
Hold me Glory, I want to be loved by you tonight

This is what I have to give
My heart, my soul, mind and strength to you
I need you now more than ever before
Drowned out, by everything
Lift me up so I can sing (2x)

Pray for me, pray for me, cause I am, I am alone
Drowned out, by everything
Lift me up so I can sing (2x)
Kiss me Glory, embrace me tonight
Hold me Glory, I want to be loved by you tonight
