I woke up late this morning
The sun tickled my nose
I felt incredible easy
I chased away my ghosts

And over my soy latte
A thought came to my mind
From now on I am happy
I leave the world behind

I always felt the burden to change things
But instead I'm sleeping now
I believe in the good of someone
Of someone else now

Chorus:
Unlike me, just like you
That is all I wanna do

I'm too tired to make a difference
I quit tryin to fit these shoes

Unlike me, just like you
I take off my saviour-suit
I'm officially off duty
Life is exhausting
Who knew

I made a nice decision today
To roll over in my bed
I'm listening to girl-music
Delete my heavy head

I like this whole new side inside me
Pretending there's no strife
I wonder why it took me so long
It seems the perfect life

No word of pain and sorrow
Just ladadidada-daaa
I hope I can keep it 'til tomorrow
When I am back in world issues

Chorus:
Unlike me, just like you
That is all I wanna do

I'm too tired to make a difference
I quit tryin to fit these shoes

Unlike me, just like you
I take off my saviour-suit
I'm officially off duty
Life is exhausting
Who knew

Bridge:

I'm not alright
I know that is very unlike me
But everybody needs a break from watching the world
And even angels fly away

Repeat Chorus:
