"Dirty Water"

Visit "[Dirty Water](#)" on MotoLyrics.com

I swear I've seen your face before
it's been inside my open door
I'm sure I've played this game before
pay a little bit now then later more
Angel.....Angel
Ring them bells, ring them bells
Something is wrong, it doesn't belong
and it's not natural to sing that song

And if I wash my hands in your dirty water
will your religion make me clean
And if i wet my feet in your dirty water
will I be blind for all I see

A lover would be more concerned
when I needed you your head was turned
Seems like you do what you can
to make me feel a guilty man
Angel.....Angel
Ring them bells, ring them bells
Something is wrong, it doesn't belong
and it's not natural to sing that song

And if I wash my hands in your dirty water
will your religion make me clean
And if I wet my feet in your dirty water
will I be blind for all I see

And if I wash my hands in your dirty water
And if I wash my hands in your dirty water
And if I wash my hands in your dirty water
