You know it's gonna leave a scar  
You're gonna bring the mad looks down  
And I am, I am, I am, the one to show you  
You're gonna make it right  
You're gonna stain the bad things good

We're gonna take off  
And never break up  
And it won't end, won't end pretty

It's been a day and I forget  
The things you fail to see  
So what, I like to fight, it makes it harder  
The city takes us in  
And I'm the one that's going to end  
I am, the one, the one, the one to show you

We're gonna take off  
And never break up  
And it won't end, won't end pretty

We're gonna take off  
And never break up  
And it won't end, won't end prett
