

Catlow "Ocean Space Sand"

Visit "[Ocean Space Sand](#)" on MotoLyrics.com

We went out the the ocean, it was so cold

We went out to the space ship, it was so cold

It wasn't all that I expected, it was so cold

And then I looked into your heart, and it was so cold

Someday will you come to my world, and put your feet
Inot the sand and Someday will you come to my world,
And lift me out of the sand

We were looking for the same thing, we didn't know
what
It was

And we were living throught the same veins, only yours

Had no blood

Don't take this the wrong way but you can't breath on
My planet

Don't take this the wrong way but I can harly put my
Arms around you

Someday will you come to my world, and put your feet
Into the sand and Someday will you come to my world,
And lift me out of the sand

And someday wouldn't it be nice to be here and lift me
Out of the sand...
