

Cause For Alarm "Parasite"

You wanna fit in, be one of the boys we try to treat you
Right hoping you'll join our
Fight but you won't share any of your joys... you're
Running from yourself afraid we'll
Call you sucker but in the end it's only you that will
Suffer cause if the kids are to
Stand as one then money and drugs can't spoil our fun

Cause if they do... it's just
Another business deal and that's just something I don't
Feel now I'm seeing
Something that's out of your scope all you're seeing is
Money, scams, and dope now
I'm starting to lose sight of some of that hope... !
