Having fun getting drunk what kind of man are you
Something's wrong, it's not the
Same which one of you should I blame? let your true
Colors show let your true
Colors show now you feel like superman fighting
anyone
You can now you say you
Feel so good something I don't understand let your
true
Colors show let your true
Colors show you're so fucked up... it's not the same you
Made the choice... no one
Else to blame let your true colors show let your true
Colors show
