Behold the parasite
Hunger in it's eyes
Seeking it's entry point
To the wealth inside
A world of pain
A life prostrate
Awareness is the key
Our hope lucidity
Fall not for the glib Or it's around your throat
It's gain is our demise

Burrows deep Strips our lives
Cogs in the wheel For it's machine
It's spangled banner Third world screams
Bleed the leech Break the grip
Can't you see? Or are you sold?
Bleed the leech Break the grip Can't you see? Can't
you,
Behold?
