Cause you'll be loving loving loving loving loving loving  
Loving loving loving loving loving me  
Cause you'll be loving loving loving loving loving loving  
Loving loving loving loving loving me  
Cause you'll be

It's not the same without you  
Don't wanna be without you  
Can't stand to be without you  
There is no mean without you  
There is no wise without you  
Our love won't last without you  
I just want to be with you  
Don't wanna be without you

Just forever is you and I  
The only limit we have is the sky  
And together we will fly

Cause you'll be loving loving loving loving loving loving  
Loving loving loving loving loving me  
Cause you'll be loving loving loving loving loving loving  
Loving loving loving loving loving me  
Cause you'll be

You'll be the rythme of this song  
Everybody else is gonna the ring down  
I'm thought of you heel  
Just but a way you make me feel

The sunshine is brightened now  
There's no cry cause I just smile  
And you can tell  
Cause you can never fell

Just forever is you and I  
The only limit we have is the sky  
And together we will fly (we will fly)

Cause you'll be loving loving loving (you'll be) loving  
loving loving (you'll be) Loving loving loving you'll be  
you'll be loving me

Cause you'll be loving loving loving (you'll be) loving  
loving loving you'll be Loving me... loving loving loving  
me

Cause you'll be loving loving loving loving (you'll be)  
loving loving Loving you'll be loving me... loving loving  
loving me (I even know you feel)

Cause you'll be loving loving loving you'll be loving me  
loving loving Loving loving loving loving me

Just forever is you and I  
The only limit we have is the sky  
And together we will fly

Cause you'll be loving loving loving (you'll be loving  
me) loving loving loving Loving loving loving loving  
loving me (you'll be loving me)

Cause you'll be loving loving loving loving loving loving  
(you'll be loving me...) Loving loving loving loving loving  
me

Cause you'll be loving loving loving loving (you will  
be...) loving loving Loving loving loving loving loving  
me (you'll be loving me...)

Cause you'll be...
