hey hey you dont try to say everything is great i dont

hey hey what im trying to say is i dont feel ok having a
headache
hey hey what im gonna do is what you re feeling too
this is me and you

you say the things for you are easier than they are
but no my friend youve got to understand
its hard but better to get into the rhyme of live be
clever
combine your mind with mine

you feel what you feel you know i dont care
you do what you do you know i dont mind
you say you want to stay you know im not here
