Show me the way to the ground of my soul  
A trip deep inside where we don't have to hide  
Take me in your world let me swim through the sea  
Take me back to the place I belong

Verse 1:

Welcome my soul in the moment of truth  
A place to return when there's nothing to loose  
Come into my life, we will rise to the sky  
Nothing is real, just you and I

Chorus:

Take me anywhere you want  
Take me back where I belong  
Take me anywhere my love has gone

Take me anywhere you want  
Take me back where I belong  
Wont you take me where my love has gone
