What do you think, how do you feel  
Who are you inside  
What do you see, talk to me  
Are there things you hide  
Is there a way that you could say  
Won't you tell me so  
Won't try to realize  
I really need to know

Tell me, take me to the light  
Show me, how it feels to be loved  
How it feels to be loved  
Show me, show me

An empty day, a lonely night  
Hours without you  
If you're away I don't feel right  
I don't know what to do  
The time ticks by, I lose my mind  
I pray the pain will ease  
Why did you go, I need to know  
So won't you tell me please

Tell me, take me to the light  
Show me, how it feels to be loved  
How it feels to be loved  
Show me, show me
