Oh baby, come on, impress me
Impress me
Oh baby, impress me
Try to impress me, sure doing right
Got to impress me, impress me

Why did you wait so long to tell me how you feel?
I know it's real
Oh baby
I'd stand a thing for the love of you
Try your best to feel me, feel me
It's oh so real to me

Let me take you to the other side
I'm not trying to hurt your pride
Let me show you what I got
You're struggling, you got me trying to state
Oh my fate, oh my fate
I know what you want
Come on

Oh baby, come on, impress me
Impress me
Oh baby, impress me
Try to impress me, sure doing right
Got to impress me, impress me

I'll never desert you, I wouldn't hurt you
Never let you get away, please stay, please stay
Tonight is the night, let's make a flight

Oh baby

Oh baby, come on, impress me
Impress me
Oh baby, impress me
Try to impress me, sure doing right
Got to impress me, impress me

Oh baby, come on, impress me
Impress me
Oh baby, impress me

Try to impress me, sure doing right
Got to impress me, impress me

Oh baby, come on, impress me
Impress me
Oh baby, impress me
Try to impress me, sure doing right
Got to impress me, impress me

Impress me
(I'm taking you to the other side right now)
(Never never gonna hurt your pride)
(You've been knocking at my door, come on in)
(The night was meant for you)
(Please be calm, talk but don't cry)
(Even when we grow old, my dear, my love)
(Sure serves you right, impress me)

Oh baby, come on, impress me
Impress me
Oh baby, impress me
Try to impress me, sure doing right
Got to impress me, impress me

(Like you used to be)
Impress me
(You're around all the time)
Let me show you the way
(Impress me)
I'll take you to the other side
(You got to make me happy, I'll do anything for you)
Do it like you used to
(Make me happy, so happy)
Deeper, so deep
(Impress me)
Is that in the name of fate?
(Impress me)
Sock a little
(Impress me)
Hold me like you asked for it
(This side is too much, let me take you to the other side)
You got to beg and plead
(Impress me)
