A part of her life has now faded. Slowly her eyes have  
Been closed. this sweet poison has flowed in her veins.  
She still has this silver chalice in her hands. A picture  
Of a Romantic Beauty stands on the wall. A Breath of  
Death and Cold Darkness invades this crypt. This silent  
Atmosphere lacerates myself. The sweet young  
creature is  
Now completely asleep. My Lips start to kiss her virgin  
Flesh. I feel the forbidden pleasures growing in me. I  
Start to cut the flesh of this insert asleep body. This  
Cold red Blood starts to flow. A bloody Alliance is  
Signed. My fingers slowly penetrate the mouth of the  
Sleeping mistress. She has now totally possessed  
myself.  
I rape Death. I am totally devoted to her. The candles  
Burn. death has taken me in her arms. Unraped  
Darkness. I  
Feel the charming dominant power of her dead corpse.  
I  
Will also fall asleep for eternity with her, for her and  
For her blood.
