I just open my heart and ill let you inside
I just hope you're the guy who could make me burn and fly (burn and fly)
I'll just open my heart and let you inside
'cause you're the guy who burned me inside

Chorus:

Is it love, is it love, is it love, is it love
I fall in love and i fall in love
Oh is it love, is it love, is it love
I fall in love and i fall in love
(fall in love, fall in love, fall in love)

..nothing like you ..inside got ready .. i can show you
You're like candy i'm speaking the truth

This flame is getting higher, higher higher
This flame is getting higher, higher desire

..get me over there

Let's go, let's g o, come on now

Chorus:

Is it love, is it love, is it love, is it love
I fall in love and i fall in love
Oh is it love, is it love, is it love
I fall in love and i fall in love
(fall in love, fall in love, fall in love)

You got me burning like a fire
And this flame is getting higher
'cause it's bringing sweet desire.
You, you got me burning like a fire
And this flame is getting higher
'cause it's bringing sweet desire.

[Chorus:]

This flame is getting higher, higher higher
This flame is getting higher, higher desire
This flame is getting higher, higher higher
