Yesterday I had no chance,
You asked me if I like to dance,
Suddenly you touched my skin,
I feel it now, was it for real?
Later when i closed my eyes
I felt like i was hypnotized,
I live the moment of my life,
In my heart i feel alive,

I got you under my skin,
Maybe you don't know how i feel,
My love is real,
I got you under my skin,
Baby you should know that my love is for real,
Don't you know that I got you under my skin,
Maybe you don't know how i feel,
My love is real,
I got you under my skin,
Baby you should know that my love is for real,

Everytime you call my name,
Simple things become a game,
When your lips are close to mine,
I wish I could stop the time,
You're with me and i want more,
Take me to a higher floor,
Even when the lights go out,
We enjoy the music loud,

I believe this is true,
My love for you,
Is bringing joy to my life,
